# Lumwana Mine — Sports Court Fencing, North-Western Province

MINING	DIAMOND MESH FENCING	STEFANUTTI STOCKS	NORTH-WESTERN PROVINCE
--------	-------------------------	-------------------	---------------------------

<b>174m</b> Fence Installed	<b>4m</b> Fence Height	<b>USD 13,525</b> Contract Value	<b>2 Months</b> Duration
--------------------------------	---------------------------	-------------------------------------	-----------------------------

## PROJECT DETAILS

<b>Client:</b>	Stefanutti Stocks (on behalf of Lumwana Mine)	<b>Scope:</b>	174m diamond mesh fencing enclosure, 4m high
<b>Location:</b>	Lumwana Mine, North-Western Province, Zambia	<b>Application:</b>	Basketball and tennis sports courts
<b>Bolide Role:</b>	Fencing Sub-Contractor	<b>Duration:</b>	2 months

## BACKGROUND

Lumwana Mine, operated by Barrick Gold in North-Western Province, engaged Stefanutti Stocks as the principal contractor for recreational facility upgrades at the mine compound. Bolide Infrastructure Solutions was appointed as the specialist fencing sub-contractor for the sports court enclosure.

## SCOPE OF WORK

Bolide supplied and installed 174 linear metres of 4-metre-high diamond mesh (chain link) fencing to enclose the basketball and tennis court facilities at Lumwana Mine. The 4m height specification was required to contain ball sports within the courts and provide adequate protection for the surrounding compound. All works were carried out to Stefanutti Stocks' quality and safety standards, including compliance with mine site safety protocols.

## CHALLENGES & DELIVERY

The project required mobilisation to a remote mining site in North-Western Province — over 600km from Lusaka. The Bolide team managed all logistics, accommodation, and site coordination alongside Stefanutti Stocks' site management team. The project was completed within the 2-month programme.

## OUTCOME

The sports court enclosure was completed to the satisfaction of Stefanutti Stocks and handed over to Lumwana Mine for use. This project is part of an ongoing sub-contracting relationship with Stefanutti Stocks, with Bolide also completing fencing works at the Zambia Sugar site in Mazabuka in the same period.

## KEY PROJECT FACTS

<b>Fencing Type</b>	Diamond Mesh (Chain Link) — galvanised
<b>Fence Height</b>	4 metres
<b>Total Length</b>	174 linear metres
<b>Application</b>	Basketball and tennis court enclosure
<b>Site Location</b>	Lumwana Mine, North-Western Province (600km+ from Lusaka)
<b>Principal Client</b>	Stefanutti Stocks
<b>End Client</b>	Lumwana Mine (Barrick Gold)
<b>Contract Value</b>	USD 13,525
<b>Bolide Role</b>	Specialist Fencing Sub-Contractor
<b>Duration</b>	2 months
