About Bolide Infrastructure Solutions Limited

Bolide Infrastructure Solutions Limited (BIS) is a Zambian-owned and operated construction company committed to delivering top-tier infrastructure solutions across the nation. Founded by industry professionals with a shared passion for quality, innovation, and sustainability, Bolide has grown steadily to become a recognized name in construction, steel fabrication, and engineering services.

Our passion is building transformative structures that serve communities and industries alike. Whether it's a residential complex, a commercial warehouse, or public infrastructure, we bring the same level of dedication and precision to every project. What sets us apart is our deep understanding of the local context, paired with international standards and global sourcing.

Our materials, including fencing, structural steel, grating, and handrailing, are sourced primarily from South Africa and China and meet rigorous SABS (South African Bureau of Standards) standards.

This ensures that every component of our builds is reliable, durable, and compliant with international benchmarks.

Our Journey: Since our inception 2019, we've worked with developers, businesses, and institutions to deliver timely, cost-effective, and technically sound solutions. From humble beginnings as a tiny steel fabrication and fencing shop, Bolide Infrastructure Solutions has evolved into a multi-disciplinary company offering a wide spectrum of services including civil works, interior fit-outs, aluminum works.

As we continue to expand our footprint, our mission remains constant: to build better futures for our clients, employees, and the communities we serve.

Message from the Directors

At Bolide Infrastructure Solutions, our vision is to contribute meaningfully to Zambia's infrastructure development by providing construction solutions that blend innovation with integrity. We understand that in today's fast-changing environment, delivering excellence means staying ahead with quality workmanship, modern technology, and committed personnel.

We are proud of the team we have built—an experienced and dynamic group that brings professionalism, dedication, and creativity to every project. Our collaboration with suppliers from South Africa and China enables us to ensure the availability of quality products that meet international standards.

Looking ahead, we are excited about the journey toward retail expansion through our hardware store, which will bring even more value to our customers.

We thank all our clients and partners for trusting us and look forward to building more strong relationships and enduring structures together.

Our Services

Design & Project Management Services

We provide integrated design and project management services for construction projects of all scales. Our design team covers architectural, structural, and civil engineering, offering tailored solutions that are functional, cost-efficient, and aesthetically appealing. We utilize advanced CAD and 3D modeling tools for accurate planning and visualization.

Our project management services ensure seamless coordination across all stages—from concept to commissioning. We manage timelines, budgets, procurement, contractor coordination, and quality control. By aligning design and project execution under one roof, we offer clients a streamlined experience with a single point of accountability. Our end-to-end approach reduces risks, saves time, and ensures exceptional outcomes for every project.

Structural Steel, Fabrication & Installation

We offer comprehensive structural steel services covering design, detailing, fabrication, supply, and on-site installation. Our capabilities support a range of applications including warehouses, industrial buildings, bridges, commercial complexes, and custom frameworks. We utilize modern fabrication techniques and CNC machinery to ensure dimensional accuracy and consistency across components.

Our team of experienced engineers and fabricators work closely with clients, architects, and consultants to deliver structurally sound, cost-effective, and aesthetically integrated solutions. We offer both locally produced and imported structural steel that complies with SABS standards, enabling us to cater to diverse project requirements and demographic needs.

We also provide on-site welding, bolting, and erection services backed by strict quality control protocols to ensure structural safety and compliance. Whether it's a large-scale frame or specialized component, our structural steel services are designed to deliver strength, stability, and precision every time.

Clear View Fencing

(REF 254, 258, 308, 359, 577, 519)

We supply and install high-security, durable, and visually appealing clear view fencing. These fences are ideal for residential, commercial, and industrial use. We offer both locally fabricated and imported pre-galvanized, powder-coated fencing panels that meet SABS standards.

To complement our fencing solutions, we also provide a range of gates—both custom-fabricated and imported—to match the same quality and finish, catering to various budget ranges and preferences. Our ability to offer both local and imported solutions allows us to meet the diverse demographic needs of our clients.

Game Wire, Diamond Wire & Chain Link Fencing

We supply and install high-quality game wire and chain link fencing suitable for farms, game reserves, and security perimeters. We offer both locally sourced and imported options to cater to various customer preferences and budget requirements.

Our fencing solutions ensure durability, ease of maintenance, and strong perimeter security. This service includes professional installation and optional gate integration for controlled access.

Full Home Construction & Interior Finishes

We deliver complete residential construction solutions—from structural foundations to final internal finishes. Our services include:

- Roofing – Supply and installation of durable and weather-resistant roofing systems, including tiles, sheets, and waterproofing solutions.
- Paving – For driveways, walkways, and patios using high-quality blocks and tiles.
- Plumbing – Supply and installation of all internal and external plumbing systems, water reticulation, and drainage.
- Painting – Interior and exterior decorative or protective finishes using premium-grade products.
- Tiling – Floor and wall tiling for kitchens, bathrooms, and general flooring with diverse design options.
- Interior Fit-Outs – Design and build of customized interiors to suit client specifications.
- Bedroom Closets – Tailored wardrobe systems using high-quality materials.
- Kitchen Units – Modern kitchen fittings with a focus on efficiency, style, and space-saving.
- Built-in Cupboards – Installed storage solutions for various parts of the home.
- Office Partitions – Customized solutions for functional and aesthetic office space separation.
- Bathroom Cabinets – Stylish and functional vanity units and cabinets.

Container Homes & Offices

We design, supply, and install high-quality prefabricated container homes and offices tailored for both residential and commercial use. These structures are engineered to offer quick, affordable, and durable building solutions with the flexibility to serve as permanent or temporary spaces. Their applications include site offices, modular homes, classrooms, guardrooms, retail units, and mobile clinics.

To ensure fast turnaround and superior quality, we source our containers primarily from South Africa, significantly reducing lead times from the industry average of 3 months to just 6 to 8 weeks. This not only accelerates delivery and installation but also ensures adherence to recognized SABS manufacturing standards.

Each container unit can be fully customized with features such as:

- Insulation and waterproofing
- Electrical wiring and lighting
- Plumbing and sanitation systems
- Flooring, partitions, and cabinetry
- Air conditioning and ventilation
- Interior and exterior painting

We offer both standardized modular designs and bespoke configurations, allowing clients to tailor each unit to their specific operational or lifestyle needs. From sleek urban offices to rugged rural housing, Bolide's prefabricated solutions combine modern design with practical functionality.

Solar System Installation & Supply

We offer turnkey solar energy solutions, including system design, product supply, and professional installation. Whether for residential, agricultural, or commercial use, we provide solar panels, inverters, batteries, and supporting accessories from trusted global manufacturers. Our solutions reduce energy costs, promote sustainability, and improve energy reliability.

Aluminium Doors & Windows (Sliding, Folding, Casement)

We supply and install precision-engineered aluminum doors and windows that offer strength, insulation, and contemporary appeal. With options sourced locally and internationally, we accommodate a wide variety of architectural styles and budgets.

Grating Systems (Industrial & Domestic)

We supply and install high-performance tailor made grating systems for walkways, platforms, stair treads, and trench covers. Our grating solutions are fabricated using galvanized steel and comply with SABS standards. With both imported and locally manufactured options, we cater to a wide range of structural and aesthetic needs.

Handrailing Systems (Industrial & Domestic)

Our handrailing solutions provide safety, support, and style for staircases, balconies, ramps, and industrial walkways. We offer stainless steel, mild steel, and galvanized options, customized to fit residential elegance or industrial robustness. All handrails are installed to meet relevant safety codes and client specifications.

Road Construction

We construct and rehabilitate road infrastructure using high-quality materials and engineering best practices. Our road services cover grading, compaction, drainage, surfacing, and signage. Whether it's urban tarmac roads or rural gravel routes, we deliver long-lasting, weather-resilient solutions that improve connectivity and safety.

Crossing Points

We design and construct safe and durable road crossing points including culverts, pedestrian walkways, speed humps, and bridges. Our work ensures proper water drainage, traffic flow, and safety for all users. Each crossing is engineered to suit local terrain and traffic conditions.

		110, 150	12, 15, 20	0.72 - 3.0	Single-leaf brick walls, standard residential walls	250
		230	12, 15, 20	0.72 - 3.0	Double-leaf brick walls, retaining walls, high-load structures	250
Black Wire	1.6 - 2.8	57, 75	12, 15, 20	0.72 - 3.0	Half-brick walls, general masonry, non-corrosive environments	500
		110, 150	12, 15, 20	0.72 - 3.0	Single-leaf walls, standard construction	250
		230	12, 15, 20	0.72 - 3.0	Double-leaf walls, high-strength applications, retaining walls	250

- **High Strength:** All brickforce is rated at 550MPa for optimal tensile strength and crack resistance.
- **Versatile Range:** Our various widths cater to all standard brick and block sizes on the market.
- **Convenient Packaging:** Bundles are clearly marked for easy transport and inventory management on site.
- **Corrosion Protection:** Our galvanised brickforce is ideal for projects in coastal or high-moisture areas.

Z450	N/A	ZAM150

HOW AVAILABLE IS ZAM?

- Vulcania is stocking ZAM in the following thickness ranges: 0.90mm, 0.96mm, 1.16mm, 1.50mm, 1.90mm and 2.0mm.
- Coating layers of ZAM120 and ZAM150 are available.
- Vulcania is offering lipped channel in both the traditional 250MPa steel as well as 450MPa high strength grades.
- Any grade and thickness of ZAM can be brought in on contract deals.

MATERIAL COMPARISON

AZ COATING

Continuous hot dipped process
 55% Aluminium
 43.5% Zinc
 1.5% Silicon
 Balance % trace elements

Superior corrosion resistance:

Aluminium offers barrier protection.
 Zinc offers sacrificial protection.
 *AZ 150 after 240 hours of salt spray testing
 no signs of deteriorating.

Excellent heat reflectivity:

Roofing applications: creates a cooler internal temperature in summer and a warmer temperature in winter due to reflection.
 Appliance Application: AZ increases the appliance's efficiency therefore lower energy consumption.

Heat Resistance:

AZ can reach temperatures up to 675°C
 Product can be used up to 538°C before decolouration

Superior cut edge protection
 Superior formability
 Superior weld ability: generates less Zinc fumes
 Small, uniform
 unique spangle
 Silver, white in colour
 Matt finish

GI COATING

Continuous hot dipped process
 0.2% Aluminium
 99.7% Zinc

Balance % trace elements

Superior corrosion resistance:

Zinc offers sacrificial protection.
 *Z275 after 240 hours of salt spray testing
 signs of red dust appear

Excellent heat reflectivity:

Due to low reflection values the heat loss is greater creating a hotter internal temperature in summer and a colder temperature in winter.

Heat Resistance:

GI can reach temperatures up to 480°C
 Product can be used up to 232°C before decolouration

Superior cut edge protection
 Superior formability
 Medium weld ability
 Medium / Large
 irregular spangle
 Silver, grey in colour
 Shiny, bright finish

CONCEALMENT CHANNELS

MILD STEEL

TWO THICKNESS VARIATIONS:

Material: Electro-galvanized Mild Steel

0.6mm (1.56 kg per 2.45m length)
 0.8mm (2.11 kg per 2.45m length)

DIMENSIONS:

B - Width: 90mm

A - Height: 15mm

C - Depth: 10mm

Length: 2.45m (convenient to handle and manage for DIY projects)

FEATURE	I-BEAM (S-BEAM)	IPE-BEAM	H-BEAM (W-BEAM, HEA/HEB)
Cross-Sectional Shape	Tapered flanges, I-shape	Parallel flanges, I-shape	Parallel flanges, H-shape
Flange Width	Narrow, often tapered	Narrow	Wide, often equal to depth
Bending Resistance	Moderate, best for vertical loads	High	Very High, strong in all directions
Lateral Stability	Low, prone to buckling	High	Very High
Load Capacity	Suitable for lighter loads	Suitable for medium to heavy loads	Suitable for heavy and complex loads
Span Capability	Short to medium (10-30 m)	Medium to long	Long to very long (up to 100 m)
Manufacturing	Hot rolling (single piece)	Hot rolling	Hot rolling (modern) or welding (custom)
Relative Cost & Weight	Lower cost, lighter weight	Medium cost, medium weight	Higher cost, heavier weight
Common Applications	Residential construction, floor joists	General civil and industrial construction	Columns, long-span bridges, heavy industrial buildings

COMPARISON TABLE

CHARACTERISTIC	HOT ROLLED (HR)	COLD ROLLED (CR)
Manufacturing Temp	Above recrystallization temp. (over $1700^{\circ}\mathrm{C}$)	Below recrystallization temp. (room temp.)
Surface Finish	Rough, dark, scaly (mill scale)	Smooth, bright, or matte; may be oily
Edges & Corners	Slightly rounded	Sharp, well-defined
Dimensional Tolerance	Wide (2-5% of dimension)	Tight, precise
Internal Stress	Free from internal stress	Enhanced internal stress (work hardened)
Cost	Less expensive	More expensive
Typical Applications	Structural, large-scale, non-aesthetic	Precision, aesthetic, high-tolerance

CHEMICAL ANALYSIS				
C	MN	SI	P	S
0,1	0,5	0,025	0,025	0,03

Chemical composition of steel ensures good galvanizability, weldability and formability.

TOLERANCES

SPECIFICATION	ROUND TUBING	SQUARE & RECTANGULAR TUBING
Outside dimension (D,B and H)	The greater of +- 0,5mm and +- 1% D	The greater of +- 0,5mm and +- 1% B of H
Out-of-roundness (O)	For D/T ratio < 100:2% For D/T ratio > 100:ageement	N/A N/A
Thickness (T)	+- 10% T with a maximum of 2,0mm	+- 10% T with a maximum of 2,0mm
Squareness of sides	N/A	90° approx 2°
Concavity/Convexity (independant of B or H)	N/A	+- 0,8% with a minimum of +- 0,5mm
External corner radius (r)		T < 6mm Cold Formed: 1,5T to 2,5T
Straightness (e)	0,20% of total length	0,20% of total length
Twist (V)	N/A	2mm plus 0,5mm/m length
Mass (M)	+- 10%

WALL SPIKES

PRODUCT CODE	SIZE	DESCRIPTION
SPK300201500M	30mm x 2mm x 1.5m	Perfect for front walls and visible areas, offering a strong yet neat deterrent without being overly aggressive.
SPK400201500M	40mm x 2mm x 1.5m	The ultimate choice for back walls and high-risk areas, providing maximum protection where you need it most.

RAZOR WIRE & RAZOR FENCE

COMMERCIAL QUALITY

CONCERTINA RAZOR WIRE

Concertina razor wire, also known as barbed tape concertina or helical coil, is made of a continuous spiral of razor wire. When deployed, the coils expand to form a cylindrical shape with a series of sharp blades. The coils are clipped together at intervals to maintain the shape and provide a dense barrier. This design makes it a highly effective deterrent, as it's difficult to climb over or cut without specialized tools.

FLAT WRAP RAZOR WIRE

Flat wrap razor wire consists of a single coil of razor wire that's formed into a flat, circular shape. The coils are secured to each other to create a single, continuous flat panel. This type of razor wire is typically used to enhance the security of existing fences or walls. It provides a less intrusive and more aesthetically pleasing alternative to concertina wire, while still offering a high level of security.

RAZOR FENCE PANELS

Razor fence panels are a more rigid and permanent security solution. They are pre-fabricated panels or meshes made of razor blades or a combination of razor wire and steel wire. Unlike the coiled designs, these panels are typically installed as a solid fence or barrier, offering a formidable obstacle. They are often used for high-security applications where a strong, unyielding barrier is required, and they provide a clean, finished appearance.

NETTING WIRE

COMMERCIAL QUALITY

- **Stronger By Design:** Made from 0.65mm thick wire, providing superior strength and durability compared to flimsy 0.5mm alternatives.
- **Built to Last:** Hot-dipped galvanized for excellent corrosion protection, proven to withstand the harsh Springs climate and greater South African conditions.
- **Perfect For Any Project:** The trusted choice for chicken coops, garden protection, plaster reinforcement (stucco), pet enclosures, and all DIY needs.

BIRD WIRE

SIZE	LENGTH	WEIGHT

- **Heavy-Gauge Steel Wire:** Provides exceptional rigidity and a formidable barrier.
- **Hot-Dipped Galvanized:** Coated before welding for a durable, corrosion-resistant finish.

PROVEN IN THE FIELD FOR:

- **High-Security Fencing:** Creating strong, anti-climb perimeters and secure cages.
- **Industrial Guarding:** Protecting machinery, creating safety barriers, and partitioning warehouses.
- **Heavy-Duty Agriculture:** Building robust animal enclosures, flooring, and vermin-proofing for barns.
- **Transport & Automotive:** Manufacturing truck light protectors, cargo barriers, and durable trailer components.

Let's Build the Future—Together

At Bolide Infrastructure Solutions, we believe infrastructure is more than steel, concrete, and design—it's the backbone of progress and prosperity.

Every home we build, every road we pave, and every fence we install is a contribution to Zambia's development story.

With a commitment to excellence and a deep respect for the communities we serve, we strive to be more than a contractor—we aim to be a trusted partner.

Our team's professionalism, diverse capabilities, and passion for results are what fuel our growth and shape our reputation.

From initial design to final installation, we deliver on our promise to build safer, smarter, and stronger spaces.
